

Explore HIPPO HOLLOW **ART TOUR**

Explore Hippo Hollow welcomes you to our interactive art route. Supporting local is an ethos very close to our hearts, it lies at the core of South Africa's renown 'ubuntu' (an African philosophy about community values and humanity to others).

The owners of Hippo Hollow Country Estate have seized the opportunity of a décor revamp to showcase a small number of local artists. The hanging of this thoughtfully handpicked private collection was carefully curated by Dana Macfarlane, owner of the White River Gallery by Halifax, whose experienced and gifted eye chose the perfect way to lead visitors from one artwork to the next, unwrapping a creative story at each stop.

Scan the QR code alongside each artwork to find out more about the artist and why not visit the Hippo Hollow gift shop to take a little bit of our art route home with you?

Explore Hippo Hollow and the hotel art route are the latest steps in our journey; a pilgrimage to represent and support our local community in everything that we, as Seasons in Africa and our associated properties, Magnolia and Kuka Restaurants, do.

For additional details about the hotel, please scan the QR code to view our website.
